## Versatile Ultrasonic Slicing

**FOODTOOLS**  
Industry Leaders in Portion Control

# ACCUSONIC-10USRW

## Average Speed:

50-100 Products Per Hour

## Function:

This machine is perfect for sticky, difficult to cut, and delicate products. It is capable of cutting in or out of the box/pan. The Ultrasonic blade vibrates at 20 kHz to prevent the product from sticking to the blade, allowing each slice to have a clean quality look. The machine can also be used to cut 2 round cakes per cycle with no Divider Inserts. This machine is best for bakeries with hard to slice production volume of 50-100 products per hour.

## Benefits

- Achieve a return on investment through labor savings and improved portion quality and consistency
- Ultrasonic technology ensures consistent cut quality at a wide range of temperatures
- Servo driven indexing improves precision
- Slice round and sheet products in or out of the pan, box, or container into wedges, squares, rectangles, triangles, and more
- Reliable and durable equipment backed by manufacturer's warranty
